EXPERIENCE

Capture a Trip,
Junior Software Developer

Feb, 2024 - Present

- **Description:** Helping Build Next big Thing, Collaborating on groundbreaking projects, I contribute by optimizing code and integrating innovative features. Proficient in TypeScript, Next.js 14, Framer-Motion, Tailwind CSS, and Radix UI, Playing a key role in shaping our future.
- **Technologies:** Typescript, Next.js 14.

Dramatic Scripts,
Freelance Developer

Feb, 2024

- **Description:** I undertook the redesign and development of a Scripts Showcasing Website aimed at providing customers with in-depth details about various Scripts. The project involved a significant transformation by implementing Content Layer MDX Content, transitioning from the previous static render of the website. This adaptation facilitated the seamless addition of new scripts for the admins, enhancing the platform's flexibility and scalability.
- **Technologies:** Typescript, Next.js 14, Framer-Motion, Tailwind CSS, Radix UI, Jotai, Contentlayer and MDX.

PERSONAL PROJECTS

Personal eCommerce Store,

Jan, 2024 - Present

- **Description:** Designed and Developed a Dynamic Personal Portfolio Website.
- **Technologies:** Typescript, Next.js 14, Framer-Motion, Redux Toolkit, Tailwind CSS, Radix UI, Headless UI, Stripe for Payment Gateways, and Next Auth for Authentication.
- **Features:** Implemented a dynamic and responsive user interface with Framer Motion animations, Headless UI, Shadcn Lib, and Redux Toolkit for state management. Integrated Stripe for secure payment gateways. Utilized Prisma ORM with PostgreSQL database for efficient data storage. Demonstrated proficiency in leveraging Next.js features for optimal performance.
